

MAINTENANCE MUSTS: DANISH OIL

You've just received a piece of a beautiful story – a story that is quite literally rooted in the earth. To ensure your new furniture piece ages as it should, there are a few things you will need to do with your selected wood coating: DANISH OIL.

1. MAINTENANCE SHORT TERM

Within the first month - at least 2 coats of Danish Oil must be applied, thereafter once every 2 months or when furniture looks dry or starts to change colour. The Woodoc product provided may also be used.

2. MAINTENANCE LONG TERM

Apply Danish Oil when furniture gets dry or starts changing colour. Apply at least twice a year.

3. APPLICATION PROCESS

Rub on with a clean rag. Wipe off excess with another clean, dry rag after ten min max. Repeat once dry.

4. FURNITURE CLEANING

Clean with a damp cloth or with Danish Oil.
